

WEEKLY SHIPMENTS FROM TONOPAH MINES

Following is a comparative statement of tonnage from the mines of Tonopah for this week and three preceding weeks:

	July 15	July 22	July 29	Aug. 5
Belmont	3,336	3,550	3,382	3,587
Tonopah Mining	3,100	3,150	2,900	2,900
Tonopah Extension	1,750	1,820	1,860	1,850
West End	1,040	1,314	1,002	1,015
Jim Butler	1,050	1,100	1,100	1,100
North Star		56		66
Midway and Montana Leasers	31	146	163	204
Total	10,307	11,137	10,407	10,722
Value	\$211,486	\$226,426	\$213,286	\$218,956

Previously reported since January 1, 1915
Dry tons, 320,691; value, \$6,577,199.

Total production this year to date: Dry tons, 331,413; value, \$6,796,152.

STOCKS

The following are the closing stock quotations, and the record of the day's sales, as received from the San Francisco stock exchange this afternoon by Broker H. E. Epstein:

WIZARD TALKS ON RACE BETTERMENT

(Continued from Page 1.)

results, temporarily attained through favorable environment and the permanent results of selection of the best individuals for continuing the race. "What would be the result if all apple, plum, corn, melon or petunia seed was indiscriminately planted? Soon worthless mongrels only, having no character and no value for any purpose.

"Only by constant selection of the best can any race ever be improved. No education, no environment of any nature can ever make any appreciable progress, even though these same favorable surroundings may produce a definite but infinitely slow increment, which by constant repetition becomes slowly available in heredity, but by no means fixed, so that reproduction true to the better type can be depended upon.

"It is becoming increasingly necessary to impress the fact that there are two distinct lines in the improvement of any race; one by favorable environment which brings individuals up to their best possibilities; the other ten thousand times more important and effective—selection of the best individuals through a series of generations. By this method and by this only, can any race of plants, animals or man be permanently or radically improved. When these two lines of action are combined, all the best qualities of any type are brought forth and fixed—and the field for improvement is limitless."

NEW OPENING IN THE BUCKEYE IS STARTED

STATION IS BEING CUT AT THE NINE HUNDRED FOOT LEVEL

The hanging wall of what appears to be a well defined ledge was cut in the main working shaft of the Buckeye mine some time ago, and while it showed some good values no effort was made at the time to develop it. It is thought to be one of several veins whose strike would carry them across the property. In order to open up the vein matter a station is being cut at the 900-foot level, just below where the hanging wall passes out of the shaft. At this point some assays were taken that showed better than \$40 per ton, and a few specimens showed small particles of native silver. The plan is to follow the hanging wall for 50 or 100 feet away from the shaft and then to crosscut to the footwall and carry drifts upon both walls of the ledge. According to the best available information at this time the ledge appears to be more than 50 feet in width with the better assays coming from places close to the walls. There are a number of stringers that seem to cross the ledge from wall to wall but the average value of the entire ledge has not been ascertained.

The north drift to the eastward, from the bottom of the No. 1 shaft is following the boundary line between the Halifax and Buckeye property. This drift has been advanced 700 feet east from the shaft, and last month it passed through a large body of iron pyrites that showed a surprisingly large percentage of the value to be gold, while only a fraction of an ounce of silver was obtainable in the assay.

The drift is now being carried through the trachyte formation with frequent cutting of stringers of good ore. The need of an air circulation has prevented efforts to follow these stringers away from the main drift, hence this drift has been driven steadily ahead without taking time to develop numerous indications that have been cut during its progress. It is expected that an air connection will be made upon this 1200-foot level about 100 feet further east. The natural rock heat will cause a good circulation of air that will make a big reduction in both temperature and humidity.

TRAMNER ONLY ONE CAN BE EXECUTED

A dispatch from Carson City says that there is but one execution that can take place at the state prison in the near future, that being Trammer, under the death sentence for the killing of the Quillets about four years ago. As his case is now in the supreme court, it is possible that a determination will be reached this fall. Under a recent stipulation between the attorneys in the case new briefs are filed. As Trammer was convicted of murder while in the act of robbery he would not escape as has Salgado under the provisions of the law enacted by the late legislature.

DOCTORS REPORT A STRANGE INFECTION

The doctors report many cases of a strange form of infection. The cases are not confined to the town nor to any particular part of the county, and they are so numerous as to be looked upon almost as an epidemic. The origin of the trouble is not known, but may be from some strange vegetable growth. The trouble generally starts from a scratch or bruise on the hand and then follows up the arm, causing swellings under the arm. The trouble so far has not been serious in any case but is very annoying. Elko Independent.

HELD FOR TRIAL

At Elko on Wednesday the preliminary examination of Teodoro Pitaro, charged with murder, Judge Castle held the prisoner for trial, fixing his bail at \$10,000.

DR. ANNA SHAW IN HER SUFFRAGE AUTO.

Photo by American Press Association.
Dr. Anna Howard Shaw, president of the National Suffrage association, was presented with a motorcar by the suffragists of New York, which she at once dedicated to the cause of suffrage.

SUNDAY SERVICES

St. Mark's Episcopal Church—Rev. Leland H. Tracy, rector. The services for the tenth Sunday after Trinity will be as follows: 10 a. m., Sunday school; 7:30 p. m., evening prayer and sermon. The sermon theme will be: "What Fails if Immortality Fails."

Presbyterian Church—Sunday school at 10 o'clock. Owing to the fact that the pastor will be out of the city there will be no morning church service. Christian Endeavor, 6:30. Leader, Mr. Roy McDonald. Topic, "How We Can Promote the Temperance Reform." Evening service at 8 o'clock. The pastor will return in time for this service. Theme: "Life's Visions." Good music. Doors open to all. Rev. R. W. Bayles, pastor.

Christian Science Society—Services at 11 a. m. and 7:30 p. m. Subject, "Spirit." The Sunday school convenes at 9:45 a. m. The reading rooms are located in the church parlors and are open daily from 2 to 4 in the afternoon and from 7 to 8:30 in the evening, excepting Sundays and holidays. Testimonial meeting August 11 at 7:30—the next meeting being July 28. Church at Florence and Cross avenues.

COMSTOCKERS MARRY

Comstockers will learn with interest of the marriage at Reno last evening of William Dewar and Mrs. Nettie Tobener, two esteemed residents of Virginia City, and congratulations will be extended by their many friends here and throughout this vicinity. The couple will leave for San Francisco tomorrow on their wedding trip, and will be absent several weeks visiting friends and viewing the Panama-Pacific exposition—Chronicle.

"JENKS" IS IMPROVING

George Jenkins, who recently underwent an operation for appendicitis at the Mine Operators' hospital, is rapidly regaining his strength. He is able to walk about his room unaided and will be discharged from the institution in a few days.

MAP AND NEWSPAPER FOR PRICE OF ONE

THIS OFFER WILL BE MADE FOR ONLY A LIMITED TIME, SO APPLY EARLY

The Bonanza Printing company and William J. Moran, the U. S. mineral surveyor, have entered into a combination whereby a clubbing proposition is offered to the public.

Mr. Moran has compiled a map of Tonopah mining district that is absolutely accurate, it having been made from the surveys and shows the true position of every claim. The maps are issued in either pocket form or for wall hanging. These maps are photographed on a moisture resisting paper with a heavy cloth back. They are in six colors. Not only are the claims shown, but their grouping in company estates. There is also a plat of the town of Tonopah and all roads are plainly marked.

A month's subscription to the Bonanza, either by mail or carrier, will be given with each map sold. The price of the wall map is \$5 and of the pocket map \$2. As only a limited number of maps have been secured, this offer will be for but a brief time.

Dr. W. E. Taylor

THE Optometrist OF RENO

will be in Tonopah at the Golden Eagle hotel Monday and Tuesday, August 9 and 10—two days only. Eyes examined. Glasses fitted.

THE PUBLIC SCHOOL SYSTEM OF TONOPAH

(Continued from Page 1)

pleasure to assist them in their endeavors to the best of my ability.

The board and myself find ourselves at the beginning of our relations a unit on a few policies. We are agreed that, as the servants of the people, we shall practice careful economy in the use of funds entrusted to our care, but not to the extent of niggardiness nor at the expense of efficiency. We are agreed that Tonopah high school graduates who, after graduation, properly prepare themselves for teaching, shall have the preference, other things being equal, when it comes to the selection of teachers for our schools. For this reason several such products of the Tonopah schools will this year begin their work in the grades of our schools. We have faith in the product of our own school system.

In the matter of supplies for the schools, we are agreed that, quality and prices being considered, the business men of this town, who pay heavy taxes for the support of the schools, shall be given the preference. To this end I shall be glad to become personally acquainted with business men who carry supplies of any kind likely to be needed during the year in our schools.

We are agreed that in order to bring our schools to the highest point of efficiency we must have the cordial and united support of teachers, pupils, parents, press, and the community in general. We shall welcome constructive criticism at any time and, personally, I extend a hearty invitation to any one interested in the schools to come up and discuss school matters with me at any time—come and get acquainted anyway.

Let me say this, also, to the public in general: If you only could realize the help you would be in building up your schools by just saying a word of encouragement or commendation, when it is possible to commend, to your board, superintendent or teachers, you would be eager to adopt that as your policy. School people in these days are really quite human and prefer their bouquet while they still live to enjoy them.

We shall be glad of the opportunity to use the Bonanza's pages to keep the public acquainted with what is going on in the schools and concerning our places. In a few days I shall have some definite plans to announce.

DINNER AT THE HARRINGTON

The Harrington makes a specialty of the best Sunday dinner in town. Give it a trial—adv4171

NEW TODAY

Rifles and Cartridges for Your Big Game Hunt

JUST as soon as game became scarce enough to make men critical about their rifles, sportsmen in every community got to demanding Remington-UMC.

The demand for Remington-UMC Big Game Rifles and Remington Metallic Cartridges has been growing ever since.

The Remington-UMC Dealer here in this community is the man to go to. He knows what's happening in the sport today. You know him by the Red Ball Marked Remington-UMC—and his store is Sportsmen's Headquarters.

Sold by your home dealer and 112 other leading merchants in Nevada

RESUME OF WEEK'S SPORTING EVENTS

(Continued from Page 3)

Football executives are constantly worried by the necessity of caring for many more spectators than their stadiums will seat. The situation at Cambridge is an example. When the Harvard stadium was built in 1903, it was expected that the vast horseshoe would equal all seating demands for years to come. In just twelve years Harvard finds herself in the position where there is talk of shifting the annual Yale-Harvard game to New Haven unless the Boston building commission will permit the erection of large temporary stands for the big game next November.

In 1913 some 45,000 spectators saw this game at Cambridge. Last autumn close to 70,000 paid \$137,000 to witness the Crimson defeat the Blue 35 to 0. Now the same 70,000 and some additional thousands want to see what Yale can do in the way of a comeback. While Coach Percy Houghton is worrying about a substitute for Charley Brickley, Graduate Manager Moore is trying to figure out how to put 70,000 spectators in a stadium never meant to seat more than half that number.

George Perrine of the Kansas City Federals is batting around 250 with a bat said to have been in his family for more than thirty years. The bat, so the story goes, was handed down to George by his father, who had it made from a piece of the old Ohio state penitentiary scaffold. Some players would think that there was a dead man's curse on a bat that didn't get them better hitting figures than these.

Gun clubs are just awakening to the fact that grounds that have been shot over for a number of years are veritable lead mines. One western club has recently taken out more than 25 tons of shot and believes that as much more remains to be mined. With lead at \$70 a ton the returns are well worth the labor involved. It is now quite possible that some clever American business man may buy up the European battlefields after the war, for the old lead and steel buried in the soil.

BOTH TO TAKE STUMP

(By Associated Press.)
CAPETOWN, Aug. 7.—A general election for the Union of South Africa will be held this year, probably in September. General Botha is expected to undertake a political tour in the Orange Free State, which is the foothold of his opponents, the Natives.

WILL GIVE DANCE FOR MOST WORTHY CAUSE

The dance to be given Monday evening by the student body of the Tonopah school of mines will be without doubt a most pleasant occasion. It will be carefully conducted; so that there will be nothing in the dancing to offend anyone, while the music will be of the best.

The proceeds of the party will be devoted by the students to the fitting up of the chemical laboratory which will be needed when the fall term of school begins.

AMUSEMENTS

BUTLER THEATER

The program at the Butler tonight will consist of a World Film corporation production, presenting Margaret Wycherly and John E. Kellard in the New York Hudson theater success in six acts entitled, "The Fight," by Bayard Veiller, author of "Within the Law." It's a fight by a woman against the corruption which permeates the city of which she wants to be mayor. It is a full and varied of feeling, narrative as well as dramatic. Sympathily is with Jane Thomas all through in her heavy handicap. And it is quite deficient in any episodes of an objectionable character; again, the incidents are feasible, so feasible that you can look upon the photoplay, on the whole, as true to life. Tomorrow, "The Goddess," the Pathe picture in three reels, and "The Goddess"—two reels with Earle Williams and Anita Stewart in the Vitaphone chapter story which is becoming more interesting with each number. Watch the outcome. A difficult question to be solved.

A \$5 gold piece will be given away on Friday afternoon.—Adv.

NO MUSIC BY THE BAND

There will be no concert by the Tonopah Military band tomorrow evening. The band has been acting as a sort of "ballyho" for the sure thing layout on Brougher avenue for several evenings past and the leader says that he cannot get them together for the concert that was contracted for with the business men of the city, who pay for these concerts by subscription.

For Sale—One 1912 model Dorris 5-passenger touring car in good condition. This is a bargain. Richard & Highland—Adv471.

DANCING AT AIRDOME

Dancing tonight and every other night for the remainder of the week at the Airdome theater. Good music. Admission free. Dances three for 25 cents.—adv4315.

"HEINE" HILLARD, a merchant of Millers, was in town today on a brief business trip.
